**DETAILED ACTION**

1. Claims 1-20 are pending. During a telephone conversation with Mr. Larry E. Hanneman Jr. (Reg. No. 41,063) on 31 March 2004, it was confirmed that the applicant declined to elect one group invention for prosecution at the present time.

***Election/Restrictions***

2. Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-11 and 18-20, drawn to providing input by moving in an abstract space and converting the input into universal languages, classified in class 709, subclass 244.
- II. Claims 12-17, drawn to defining an abstract space and the allowable actions within the abstract space, classified in class 345, subclass 764.

3. Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as multi-platform communication via converting a received input into a universal language understood by multiple platforms and communicating the language to a plurality of other devices. In the instant case, invention II has separate utility such as defining a navigational workspace and the allowable actions within the workspace. See MPEP § 806.05(d).

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. A telephone call was made to Mr. Larry E. Hanneman Jr. (Reg. No. 41,063) on 31 March 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
